

10 February 1951

MEMORANDUM FOR: CHIEF, STAFF I

SUBJECT: Unconventional Warfare Division  
Office, Chief of Psychological Warfare  
Special Staff, U. S. Army

It is difficult to comment on the attached paper beyond saying that it presumes the Army will have all-embracing responsibility for "unconventional warfare", and lodges the staff responsibility in this field in this staff element. It will be noted that the term "unconventional warfare" is nowhere defined, although it undoubtedly is intended to cover paramilitary and other operations for which we consider ourselves responsible under our present charter. The proposed U.W. Division is responsible for 1) recommending policies, 2) developing plans, 3) supervising execution of plans, i.e., monitoring same.
